

**Message from the Chair:** The Fair Shake Network (FSN) has dedicated the last 32 years to serving West Virginians with disabilities and ensuring that they get a “fair shake.” Our mission is to educate policymakers and the public about disability issues and to empower people with disabilities to speak for themselves. Our state has one of the highest populations of disabilities, which means united, our voice is loud. FSN will continue our work so that people with disabilities have an opportunity to equally participate in their communities and realize their dreams. To this end, we will continue to monitor all legislation introduced that may affect the disability community.

FSN urges the Legislature and Executive Branch to invest in people with disabilities and their invaluable resources and contributions to our beautiful state. The relationship between West Virginians with disabilities and policymakers set a high standard for many to look at, demonstrating the power of self-advocacy.

**Please support the 2024 Disability Agenda and continue this legacy.**

**Thank you, Sarah Mathis Jones, Chair**
